July 24, 2015

# **Work Continues on Water Main Break**

**DECATUR, Ga.** – DeKalb County continues work on a 48 inch main transmission line at Henderson Mill and Evans Road after a car hit a fire hydrant overnight. Pressure was reduced overnight to get control of the flow of water.

Pressure was restored to the system at 3:30 a.m., however the leak is still present and crews will continue working today to insert a valve in the fire line to stop the leak. The 48 inch line is approximately 20 feet deep at this location. Additional resources are being brought in to assist in the repair.

No boil water advisory is indicated at this time. The system will have additional testing today to assure the water supply remains safe.
